

BISWAJIT AICH

Aspiring Computer Science Engineer | AI/ML Enthusiast | Full-Stack Developer

Location: Hooghly, West Bengal, India

Email: biswajitaichofficial@gmail.com

Portfolio: [Biswajit Aich Portfolio](#)

Date of Birth: 22 September 2002

Phone: +916291190048

GitHub: [Biswajit Aich GitHub](#)

1. PROFESSIONAL SUMMARY

Computer science engineering student with a love for the field and over 2 years of hands-on experience in AI/ML and web development. Put more than 4 AI models to work in real-world settings making backend APIs run smoother and boosting user satisfaction. Build using full stack.

2. EDUCATION

Bachelor of Technology in Computer Science and Engineering	2022- Present
Academy of Technology, MAKAUT University, Adisaptagram, West Bengal, India	
Higher Secondary Education	2020-2022
Vivekananda English Academy, WBBHSE, Rishra, West Bengal, India	
Secondary Education	2018-2020
Vivekananda English Academy, WBBSE, Rishra, West Bengal, India	

3. Technical Skills

Programming Languages: Python, JavaScript, C++, TypeScript, HTML, CSS.

Frameworks & Tools: Next.js, React.js, Flask, TensorFlow, PyTorch, OpenCV, HTML, CSS, Node.js.

AI/ML Skills: Natural Language Processing (NLP), Computer Vision, Deep Learning, Reinforcement Learning.

AI/ML Tools: TensorFlow, PyTorch, OpenCV, Scikit-learn

Databases: MongoDB, MySQL

Version Control: Git, GitHub

Other: REST APIs, Data Analysis, Software Testing

4. Key Projects

Conversational Chatbot Using FLAN-T5

- ❖ Built a chatbot using FLAN-T5 to engage in contextual conversations.
- ❖ Focused on optimizing GPU/CPU resources during model training and inference.
- ❖ Technologies: Python, TensorFlow, Google Colab

Multiplayer Rock-Paper-Scissors AI Game

- ❖ Developed a YOLO-based (object detection) AI model for playing rock-paper-scissors in real time.
- ❖ Integrated the model into a live camera-based website using lightning.ai and NextJs.
- ❖ Achieved 90% accuracy in gesture detection during testing.

Jewellery Recommendation System

- ❖ Built a recommendation engine using cosine similarity to display relevant jewellery products.
- ❖ Deployed in a Next.js framework for a real-time user experience in e-commerce website.

SOFT SKILLS

Strong Problem-Solving and Analytical Skills. Team Collaboration and Leadership. Self-Motivation and Time Management

LANGUAGES

English: Professional Proficiency (C1).

Bengali: Native Speaker.

Hindi: Intermediate (B1)

HOBBIES AND INTERESTS

Creating art/painting. Learning about cutting-edge technologies. Sharing technical knowledge with peers
